school and college students. We begin by laying a biblical worldview foundation to equip students to recognize truth and error in culture and the classroom. We test-drive this skill by identifying various competing explanations of life offered by college professors, media figures and entertainment producers.

Students then build confidence in their faith through classical and cultural apologetics. We carefully examine the evidence behind the claims that Jesus is God and the Bible is trustworthy. Then we explore a biblical view of science, sexuality, human nature, art, evil and suffering, and world religions.

## AND FIND NEW CONFIDENCE IN YOUR FAITH

This total immersion conference truly changes lives! Participants come away from the experience with new confidence in God and His Word. Our goal is to see young men and women transformed—just in time—into confident ambassadors for Christ, not easily taken captive by the empty deception of the world (Col 2:8), but prepared to give an answer for the hope they have in Christ (1 Pet 3:15-18).
